

California Student Media Festival - 2021

Make sure the form is filled out completely before submitting. Projects must be uploaded and online to be judged. Entry can be created by an individual or a team. If a student fills out this form, the Teacher or Primary Contact must review before submitting. When the entry is 3D printing, AR, VR, etc., please upload a video demonstrating the project. If there is data for the entry (e.g., 3D printing), it may be uploaded with a link. For questions, email castudentmediafest@gmail.com.

Thank you for sharing your project with the California Student Media Festival.

DEADLINE TO ENTER: April 23

Copyright and Creativity Statement *

NOTE: Judges will use your responses when scoring your project. If you do not include your entry's copyright and creativity credits within the project, please choose 'Other' and add them in the space provided. More information on copyright and education: <https://www.copyrightandcreativity.org/>

- My submission follows copyright guidelines by including credit for music, artwork, etc, (including my own name if I made it myself).
- My credits are listed at the end of project. That is the place judges most often look for citations for music, art, videos, and photographs, etc., use in this project.
- My credits are listed on the page where the video is published.
